EXCLUSIVE OFFER

SAVE UP TO \$500 ON HEARING AIDS*

Hearing loss develops over time. Many people suffering from a hearing impairment may not realize a problem exists. Individuals who are living with a hearing loss subconsciously find ways to cope.

With proper treatment you can greatly improve the quality of your life!

Do any of these seem familiar?

- You have to turn the television volume up very high
- You constantly ask people to repeat themselves
- You have difficulty communicating in a group environment
- You have trouble hearing people on the telephone
- People always seem to mumble

If you recognize any of the above, it is time to book an appointment at The Sound Room for a complete hearing assessment.

***This special offer is brought to you exclusively by, and is valid only at The Sound Room!**
